

# Elevate Learning: Jesus Christ and the Everlasting Gospel (Rel. 225)

**Student Name:**

## **Student Instructions**

This Elevate Learning experience may be completed **instead of keeping a regular study journal for course credit**. To be clear, either this experience or a study journal which is worked on throughout the course must be completed for course credit. This Elevate Learning experience consists of a set of questions that are a companion to your class participation and study of the assigned readings. The hope is that working on the responses to these questions will help you to deepen your understanding and application of the gospel as you reflect on and share what you have learned. Please complete the following steps for each question:

1. Write an organized response for each question using your own words. Support your answers with the scriptures and the words of the prophets. Be sure your responses are appropriate to share.
2. Review your responses before March 30, 2017.
3. Revise your responses as needed.
4. Submit your final responses in class or by email on or before March 30, 2017.

Your responses should be completed outside of class. If you have a specific need, disability, or health-related condition, speak with Brother Woodward so that he can make accommodations to help you complete this experience.

## **Questions**

1. What can I learn from the Savior about obeying the will of Heavenly Father? What are some examples from the Savior's eternal ministry (premortal, mortal, and post-mortal) that illustrate His obedience to Heavenly Father? How does Jesus's obedience to Heavenly Father relate to my own discipleship and why is that important to me?
2. Why do we need the Savior? What are the main obstacles we must overcome because of our fallen state? What was/is the Savior's roles to help us overcome these obstacles? What were/are the purposes of Jesus's atonement? What must we do to accept and invite the Savior's help in our lives? What is at least one way I have felt the divine help of the Savior in my life in overcoming challenges and obstacles?
3. In two or three sentences, what are some of the most valuable doctrines I have learned in this course about Jesus Christ and the everlasting gospel? Explain several details about these doctrines using examples from the scriptures or words of the prophets. How have these teachings blessed my life? What is my current testimony of what I have learned about Jesus Christ and the everlasting gospel?
